Nuclear Analytical Methods 3 - Red (05:00 - 06:30)

time	[id] title	presenter
05:00	[261] Prompt γ -ray activation analysis for H, B, Bi, Pb and Cd	Mr SÖLLRADL, Stefan
05:30	[84] Is extraction of Fe from iron based minerals an appropriate method for determining trace elements?	Dr JACIMOVIC, Radojko
05:50	[253] The impact of polyethylene vials on reactor channel characterization in k_0 -NAA	Mr FARINA ARBOCCÒ, Fulvio
06:10	[376] Validation of k_0 standardization in neutron activation analysis at Nuclear Physics Institute, Rez	Ms KUBEŠOVÁ, Marie
