

# RadChem 2010

## Thursday, 22 April 2010

### Radiation Chemistry - Red (05:00 - 06:30)

time	[id] title	presenter
05:00	[189] Photo- and radiation-induced preparation of nanocrystalline copper and cuprous oxide catalysts	Mr BÁRTA, Jan
05:15	[141] Programming of material's properties over extended time intervals via self-irradiation phenomena	Dr LUCHNIKOV, Valeriy
05:30	[305] Radiation stability and extraction properties of thiacalixarenes	ŠPENDLÍKOVÁ, Irena
05:45	[280] Comparison of radiation and thermal ageing simulation procedures for NPP cables	Dr CABALKA, Martin
06:00	[243] Effects of dose and dose rate of $\gamma$ radiation on catalytic activity of catalase	Ms PAVELKOVÁ, Tereza
06:15	[180] Measurement of growth curves of microorganisms influenced by radiation	Mr BLÁHA, Pavel
