Chemistry of Actinide and Trans-actinide Elements 1 - Red Hall (08:00 - 09:30)

time	[id] title	presenter
08:00	[286] New nucleus ²⁷⁷ Hs: in between two islands of stability	Prof. TÜRLER, Andreas
08:15	[282] Chemical identification of element 114 at TASCA	Dr YAKUSHEV, Alexander
08:30	[252] Independent verification of element 114	Dr DVORAK, Jan
08:45	[133] Element 114 chemistry and what is next?	Mr SEROV, Alexey
09:00	[172] Vacuum thermochromatography - theory and Monte Carlo simulation	Prof. ZVARA, Ivo
09:15	[143] Gas phase chemical studies of superheavy elements using the Dubna Gas-Filled Recoil Separator – stopping range determination	Mr WITTWER, David
