

# RadChem 2010

## Thursday, 22 April 2010

### Poster Session - Radiation Chemistry - Gallery (12:00 - 13:30)

[id] title	presenter	board
<b>[135] Radiation and chemical durability of actinide crystalline matrices</b>	Dr LIZIN, Andrey	RCH.F01
<b>[356] Behavior of cadmium(II) in irradiated aqueous solutions</b>	Ms DRTINOVA, Barbora	RCH.F02
<b>[357] Radiation chemistry approach to the study of sedimentary microenvironments as models for the protection of bio-organic molecules on the early Earth</b>	Dr NEGRON-MENDOZA, Alicia	RCH.F03
<b>[358] Behavior under <math>\gamma</math>; irradiation of single crystals of NaCl doped with divalent cations</b>	Dr NEGRON-MENDOZA, Alicia	RCH.F04
<b>[120] Radiographic effects during self-irradiation of curium intermetallic compounds</b>	Prof. RADCHENKO, Viacheslav	RCH.F05
