

# RadChem 2010

## Thursday, 22 April 2010

### Poster Session - Nuclear Analytical Methods 2 (12:00 - 13:30)

[id] title	presenter	board
[42] Geochemical studies in water bodies of Western Paraguay	Prof. FACETTI-MASULLI, Juan F.	NAM.F04
[192] Characterization of Tupiguarani Tradition archaeological ceramics from Espirito Santo, Brazil, applying neutron activation and multivariate statistical analyses	Dr MENEZES, Maria Angela	NAM.F17
[317] A preliminary assessment of air quality in Mangabeiras' Park, Belo Horizonte, Brazil, using epiphytic lichens as biomonitor	Dr MENEZES, Maria Angela	NAM.F41
[351] Quantitative evaluation of essential and trace elements in nine medicinal plants by IPAA and XRF techniques	Prof. OPREA, Cristiana	NAM.F48
[352] Trace element distribution in human teeth by X-ray fluorescence and multivariate analysis	Prof. OPREA, Cristiana	NAM.F49
[353] Trace element distribution in crops grown under industrial stress: a multidisciplinary approach	Prof. OPREA, Cristiana	NAM.F50
