

# Workshop EJČF 2019

## Tuesday, 15 January 2019

### Teorie a fenomenologie (15:20 - 17:20)

-Conveners: Jan Vaněk

time	[id] title	presenter
15:20	[15] Nelineární analýza časových řad	NOVÁK, Tomáš
15:40	[37] On the measurement problem in quantum mechanics	ANDRIANTSARAZO, Elisabeth
16:00	Coffee break	
16:15	[7] Quantum many-body problem in nuclear physics	Dr VESELY, Petr
17:05	Coffee break	

# Friday, 18 January 2019

## Teorie a fenomenologie (12:00 - 12:30)

time	[id] title	presenter
12:00	[25] Multiplicity Fluctuations and Resonances in Heavy-Ion Collisions	UCHYTIL, Josef

## Teorie a fenomenologie (14:00 - 16:25)

-Conveners: Libor Škoda; Zdeněk Hubáček

time	[id] title	presenter
14:00	[10] Coupling of $\Lambda$ to Phonon Excitations of Nuclear Core	POKORNÝ, Jan
14:40	Coffee break	
14:45	[22] Vector meson production within the color dipole picture	BENDOVÁ, Dagmar
15:25	Coffee break	
15:45	[9] Electron-Ion collisions and their importance for particle physics	MATAS, Marek
