

RadChem 2022

Sunday, May 15, 2022 - Friday, May 20, 2022

Casino Conference Centre

Scientific Program

Radionuclides in the Environment, Radioecology

Nuclear Analytical Methods

Chemistry of Actinide and Trans-actinide Elements

Radiation Chemistry

Production and Application of Radionuclides

Separation Methods, Speciation

Chemistry of Nuclear Fuel Cycle, Radiochemical Problems in Nuclear Waste Management

Radiopharmaceutical Chemistry, Labelled Compounds

Education

(organised by the A-CINCH EU H2020 Euratom project)
