Dynamic Decision Making (13:30 - 14:50)

-Conveners: Miroslav Kárný

time	[id] title	presenter
13:30	[12] Mixture ratio modeling of dynamic systems	RUMAN, Marko
13:50	[14] Applications of computational and statistical techniques in experimental climate physics	HUANG, Chi-Yu
14:10	[23] Probabilistic Modelling in Adaptive Portfolio Optimization	PROCHÁZKA, Tomáš
14:30	[21] Quantum-like Model of Uncertainty for Dynamic Decision Making	Mr GAJ, Aleksej

Dynamic Decision Making (15:20 - 16:00)

-Conveners: František Gašpar

time	[id] title	presenter
15:20	[7] Applicable Adaptive Discounted Fully Probabilistic Design of Decision Strategy	MOLNÁROVÁ, Soňa
15:40	[9] Bayesian methods in neural networks for inverse atmospheric modelling	BROŽOVÁ, Antonie
