

ICDA-5

Sunday, June 7, 2026 - Thursday, June 11, 2026

Prague, Czechia

Scientific Program

Basic concepts and principles in dosimetry

Personnel dosimetry and monitoring

Dosimetry in radiological and nuclear emergencies and accidents

Dosimetry and radiation protection in nuclear installations and at accelerators

Dosimetry and radiation protection in medicine and biology

Dosimetry and radiation protection in industry

Micro- and nanodosimetry

Environmental dosimetry and monitoring

Computational methods and modelling in dosimetry

Dosimetry in aircrafts and space

Radiation detection and spectrometry

Nuclear data and evaluations

Other topics related to ionizing radiation
