Radionuclides in the Environment, Radioecology 3 - Mirror Hall (3:30 PM - 5:00 PM)

-Conveners: Eiliv Steinnes; LJUDMILA BENEDIK

time	[id] title	presenter
3:30 PM	[M7] Radioactivity in mineral waters from Iberian Peninsula	Dr CARVALHO, Fernando P.
4:00 PM	[M5] A comparative study for the determination of uranium and uranium isotopes in granitic groundwater	Dr BAIK, Min Hoon
4:15 PM	[M83] Applications of ¹³⁷ Cs and Pu isotopes in tracer studies	Dr LUJANIENE, Galina
4:30 PM	[M65] Influence of the redox state on the actinide sorption under highly alkaline conditions: batch sorption studies on titanium dioxide and calcium silicate hydrates	Dr TITS, Jan
4:45 PM	[M47] Determination of Sorption Characteristics of Artificial Radionuclides in the Hydrosphere	Mrs JURANOVÁ, Eva
