

RadChem 2018

Thursday, May 17, 2018

SEP 3 - Red Hall (10:30 AM - 12:00 PM)

-Conveners: Martin Straka; Boris Andris

time	[id] title	presenter
10:30 AM	[574] Silica-based extractants for metal uptake and their direct conversion to a waste form	Dr PEPPER, Sarah
11:00 AM	[577] Remediation of Radioiodine from aqueous used nuclear fuel (UNF) waste streams by Lewatit A365 and Purolite S985	Mr BARTON, Daniel
11:15 AM	[580] Synergy of sequential injection analysis and molecular recognition technology for low-level Sr-90 activity determination	Mrs COHA, Ivana
11:30 AM	[492] The binding ability of amidoxime ligands with different substituents to uranyl	YANG, Chu-Ting
11:45 AM	[567] Pre-concentration and selective separation of Ra ²⁺ in the presence of a wide range of concurrent cations using a new developed resin	KHALFALLAH, SOUMAYA
